## A reputation earned over years of demonstrated excellence.

Established in 1974, M.B. Herzog Electric Inc. has created a growing company whose reputation is forged in our unyielding commitment to service. It is a philosophy that is at the heart of every job we do, from the largest industrial contract to the most basic of commercial applications. To consistently execute complex projects on time, and on budget, for our diverse list of satisfied clients is not easy. We deliver time and again by combining our talented team of Herzog Electric technicians with a constant search for the latest in technology and service.

## Diverse services to support your electrical needs.

Herzog incorporates its diverse set of electrical knowledge to execute quality projects throughout California, Nevada, and Arizona, while maintaining good standing with the IBEW and NECA.

With distinctly separate divisions that cover a broad spectrum of electrical engineering and installation, Herzog Electric can proficiently handle even the most challenging of industrial projects. Each of our divisions are staffed by specialists in their field of expertise, including highly skilled Project Managers and Superintendents, all managed under the Herzog Electric banner to ensure quality and top-notch workmanship.
