Founded: 1974

Diverse services to support your electric needs

Herzog Electric was founded in 1974 as a humble startup with a big vision, eventually growing over a five decade span to serve California, Arizona and Nevada as a well-recognized I.B.E.W. & N.E.C.A.

With highly specialized divisions across Herzog Electric, each sector is staffed and managed by skilled project managers and superintendents. All members of our team are committed to providing unparalleled technical competence and workmanship under the Herzog Electric brand.
